

SILACOUNT 200

BALE WRAP COMPUTER

The RDS **SILACOUNT 200** is a simple, user friendly instrument to monitor the amount of film applied to a bale and the total number of bales wrapped.

This instrument is a more comprehensive version of the **SILACOUNT 200**. It can display useful information such as wrapper RPM, work rate and numerous bale counts. The instrument can also operate an output to release the film or stop the wrapper.

FEATURES

Sealed to IP67

10-30V DC power supply

Programmable target bale revolutions

Internal & optional external audible alarm

Bale count register
